DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 41 and 42 are rejected under 35 U.S.C. 102(b) as being anticipated by either of Boxenhorn or Johnson.

Both cited art show force sensors with features of the claimed invention including a base having an aperture with deflecting means and force sensing means located in the aperture to deflect upon the exertion of an external force (see figures 2, and claims 1).

3. Claims 21-40 are allowed.

Reason for Allowance

4. The following is an Examiner's Statement of Reasons for Allowance: The primary reason for allowance of the claims is that prior art neither teach nor fairly suggest the particular combination of the force transducer as appears in the independent claims 21 and 39. Major emphasis is being placed upon the provision of “a crossbeam” applying a “preload force” to a “sensing element” in combination with other limitations of the said independent claims and their dependent ones.

Art Unit: 2855

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

5. Applicant's amendment and arguments filed 1/31/03 have been fully considered and claims 21-40 are allowed. The argument regarding claims 41 and 42 are moot in view of the new ground of rejection.

6. THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for response to this final action is set to expire THREE MONTHS from the date of this action. In the event a first response is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for response expire later than SIX MONTHS from the date of this final action.
